*In today's economic climate, public schools are a far cry from what they used to be. Over-crowding in the classrooms and a shortage of well-educated teachers are just a few of the challenges around public schools at present.*

*Each child learns at their own pace and capabilities and often the over-crowding in classrooms coupled with peer pressure, has a negative impact on the child's performance as he or she does not get the individual attention that is required. In my own experience this is what happened with my child. Over a two-year period, his grades took a serious nose-dive and lost all interest in his school- work and school sport activities.*

*I researched home schooling and found Syllabis Learning to be an option that was not only easy on the wallet but allowed my child to learn at his own pace in the comfort of his own home. The curriculum is the same as what is in public schools and is in accordance with the requirements that the department of education has set out. All the learners are supplied with study material in both hard cover textbooks as well as online tasks and tutorials. Teachers guides are also provided for the tutors and parents who choose to do the teaching as is in my case.*

*Through Syllabis, my child went from failing grade 7 in a public school to being top of his class. Syllabis Learning provides tutors when necessary, as well as there are tutor centers that can be accessed.*

*Syllabis Learning is Affordable, convenient and professional and I highly recommend them to anyone who is serious about their child's education.*

*Last year was one of my best years of school so far. I was very happy with my homeschool experience with Syllabis. They are always there with a helping hand when needed. If I had a problem, they sorted it out very quickly. I am doing my matric now and I am enjoying every second of it. I regret it that I haven't started with them earlier as I am very happy with my homeschool experience with Syllabis and my only regret is that I did not start home-schooling sooner.*

*I've been home schooling my daughter for more than a year with Syllabis. My busy travel schedule necessitated the move. I am extremely impressed with their response times and contact availability. They ascribe to the CAPS system, which may be augmented as the home-schooling parent/teacher sees fit. The learning material is easy to follow, with schedules and inclusive assessments. Syllabis does not require an arm and a leg (or an organ or two) in terms of annual payments. You get what you pay for, when you pay for it. I can confidently recommend them.*

*I joined Syllabis last week Monday 16 March, and it is a great and amazing school. Is so different and unique. It gives you time to learn and easily understand your work and the teachers are so kind and helpful. It is a good experience thus far.*

*I hereby advise that my daughter had attending public schools up to Grade 8 until last year June 2019, when we made the decision to move to Syllabi's Homeschooling.*

*I personally believe that making this choice was the best choice we made for our daughter. She is happier and the progress she has made is astronomical. The standard of the curriculum is well above average and the procedure and staff are of great assistance and highly qualified.*

*My wife and I reached out to Syllabi's last year November 2019 because I had made the decision to home school two of our children. We have been very happy with our experience. Communication has been smooth, quick and proactive. We received the majority of books before the start of the school year.*

*They have a Online Portal with excellent content which makes it very easy for home schooling families like us to smoothly get into the swing of things. We would recommend Syllabis to anyone wanting to home school.*

*We have been with Syllabis for almost 3 years now. They have been very helpful through everything. We have seen a huge difference in our son's attitude towards everything he does, he is much more eager when it comes to schooling. In the public school, there were a lot of bullies, teachers that just didn't care, it was very difficult for him to adapt in public school. He was very restless when he went to school, had a bad attitude, but when school holidays came, he was our little boy again, then when new term starts, the problems start again. Public schools always claim that your child is the problem, they never think WHY that child is being like that.*

*We can recommend Syllabis to any parent that struggles with their children in public school.*

*Syllabis home schooling is one of the most convenient home-schooling companies we have found. It provides many re-sources needed to study just like a normal school. It provides annual reports, exams, study plans and online making it super easy to use. Not to forget that most of this is not very pricey! They also have online tutoring available. We looked for many online home school companies and this was one of the only ones that we found convenient. All textbooks provided are in good shape and have a teacher's guide for each subject and extension. I really recommend going for this online home school as your choice!*

*Hi, my name is Mrs. Zulaikha Nakooda, and I am with Syllabis home schooling for 2 years now.*

*I am very pleased to say that my kids and I are very happy, they are doing so well, and the teachers are always willing and available to help, whether it's a student or parent or tutor .... Yes the fees are a bit expensive so many can't afford it, but it is well worth it, my eldest daughter started with Syllabis in gr 9 now doing gr 10, the books are always new ,neat and delivered to our doorstep, Alby in accounts is always friendly, Cherese and Tracy the 2 teachers I deal with have the best personality, always there to help me as a parent, our kids have to be willing and self-disciplined for home schooling and honestly I have never had a problem with my kids and their results are better than when they in a private school, must be the love of being home with mum*

*👍👍👍.*

*"Thanks again for the amazing service and materials my son has gotten from your organization. At first, going the home-school route was a little scary, but you have made the experience pleasurable. Your efficient, and hands on service makes it all worthwhile. I have peace of mind with Syllabis.*

*My son Joshua is 5 years old and he will be moving on to grade 2 in January 2018. His private tutor is highly impressed with his marks and so am I. He does two hours of class every day and he does three different sporting activities to keep him busy. We do soccer on Wednesday, Swimming on Friday and Saturday and Seido Karate on Saturdays.*

*This has been the best education route for me, and my kids and I plan to stick with it through to matric. Thank you again for making everything so worthwhile."*

*If there are any parents who wishes to meet or call me to get more info on how I did it, they are welcome to do so. I will be glad to have a chat with them and recommend you throughout.*

*My family and I thank you guys for the great work you're doing there. Our kids are happier than ever, yet still adjusting to the new learning style. But they are coping very well with the change. They are having the fun of their lives which is exactly what we wanted for our kids.*

**Dorothy Shunmugham (Grade 10) – 23.5.2019 – WhatsApp, Lonehill, Gauteng:**

*I am really pleased with the efficiency of your team, please keep up the good work Syllabis, I am thinking of going Syllabis again next year. Many thanks again.*

**Sebastian and Hayley Govender, Jazan, Saudi Arabia (Grade 1)**

*"We would like to take this opportunity to thank Syllabis Home Education for the support and well laid out curriculum for our daughter who was in grade 1 during 2017.*

*The home-schooling support and assessment done was outstanding and we can recommend syllabis to any family that is thinking of going this route.*

*We home schooled our daughter in Saudi Arabia and was then assessed by an assessor provided by Syllabis. She has recently been accepted into an International School in Jazan Saudi Arabia as a grade 2 pupil."*

*Thanks for all the help Alby and the team at Syllabis Education.*

*" All I can say is I am a very happy mom. My son Yash, who is 9 and in Grade 5 told me that he will never go to a school again and will do home-schooling till matric.*

*He is absolutely chuffed, he works in his own pace and still got enough time to play games on his tablet, do his own experiments and read, He is going onto term 3 with Math's already.*

*Finding out about home schooling came at a time when I had no other way to turn as he was so bullied at a fully private school and I did not have the heart to see him tortured again.*

*Home Schooling is a total Blessing to me."*

*Thank you for all your help and I will definitely be keeping in constant contact with you.*

**Roanne Zwieggers, (Grade 3 & 5) Mossel Bay, Western Cape, wrote:**

*"I have been using syllabis for three years and we are very happy with the education system for my grade 3 and grade 5 pupils. My children are also enjoying the home-schooling there is so less pressure and we can work as fast as we want.*

*The teacher guides are helpful and easy to follow which makes it fun and stress free for me and my*

girls, which makes happy children. I am looking forward to the path we will be going with syllabis in the future.

Thank you for making teaching fun and for the good education my girls are getting! To many years ahead."

Firstly, I would like to thank you and your team for everything! You guys were fabulous, and I would highly recommend you to anyone. After much debate, we have decided to enroll Chase back into mainstream school, due to the fact that he will start high school in 2018. I'm holding thumbs he will cope, and his epilepsy will remain controlled.

A massive thank you again, and if for whatever reason he needs to be home schooled again I will contact you immediately.

**Jax Kalil, Durban, KZN, wrote:**

Hi Syllabis!

"Chase is doing so well!! He is above grade average, some subjects by far and is placed 9th in his class of 43. Thanks for thinking of us."

"I just would like to thank you and 'the team' for helping me and Layla on her home-schooling journey. It was always a relief to call with a query and help was straight away, thank you.

It built a lot of confidence in our home-schooling journey and she is enjoying it thoroughly. She is also very excited about grade 8 and we're looking forward to another year of learning. Hopefully this year we will be more equipped to do more online lessons as she also learns and enjoys the online lessons, it is a very fun way to learn.

Looking forward to 2020."

**Shariska Lester, (Grade 3) Pretoria, Gauteng, wrote:**

"I would really like to thank yourself and Syllabus for providing our family with the opportunity of not only getting to provide John with the best educational foundation but providing us the opportunity to actually spend time with him. During this time, I have gotten to know John, his weaknesses and strengths and from that we have been able to support, motivate and uplift him.

Not only has home-schooling aided to his knowledge and education in a significant way but it's also given us the building blocks to continue and proceed to actively be a part of his education, which in all aspects is crucial at his phase.

We were previously advised by teachers that John was overactive and that he needed to be put on Ritalin. We have not once had to subdue him to this fallacy created by "the system" and I've concluded that its easier for teachers to make excuses for lack of interest. I will not take their recommendations ever again as I have gotten to know John as, YES, A highly active but intellectual and curious little boy and will not be convinced any other way. It has been an absolute pleasure having John partake in home schooling with the support of Syllabis.

From the Lester family I and I would like to thank you and your team for all the support and advice provided during this year and I can honestly and confidently say that home schooling should be a 1st option for parents. Our children are exposed to less violence and abuse and who knows what's better for a child

*than his or her family, not to forget that as a parent your child's education always comes first*
